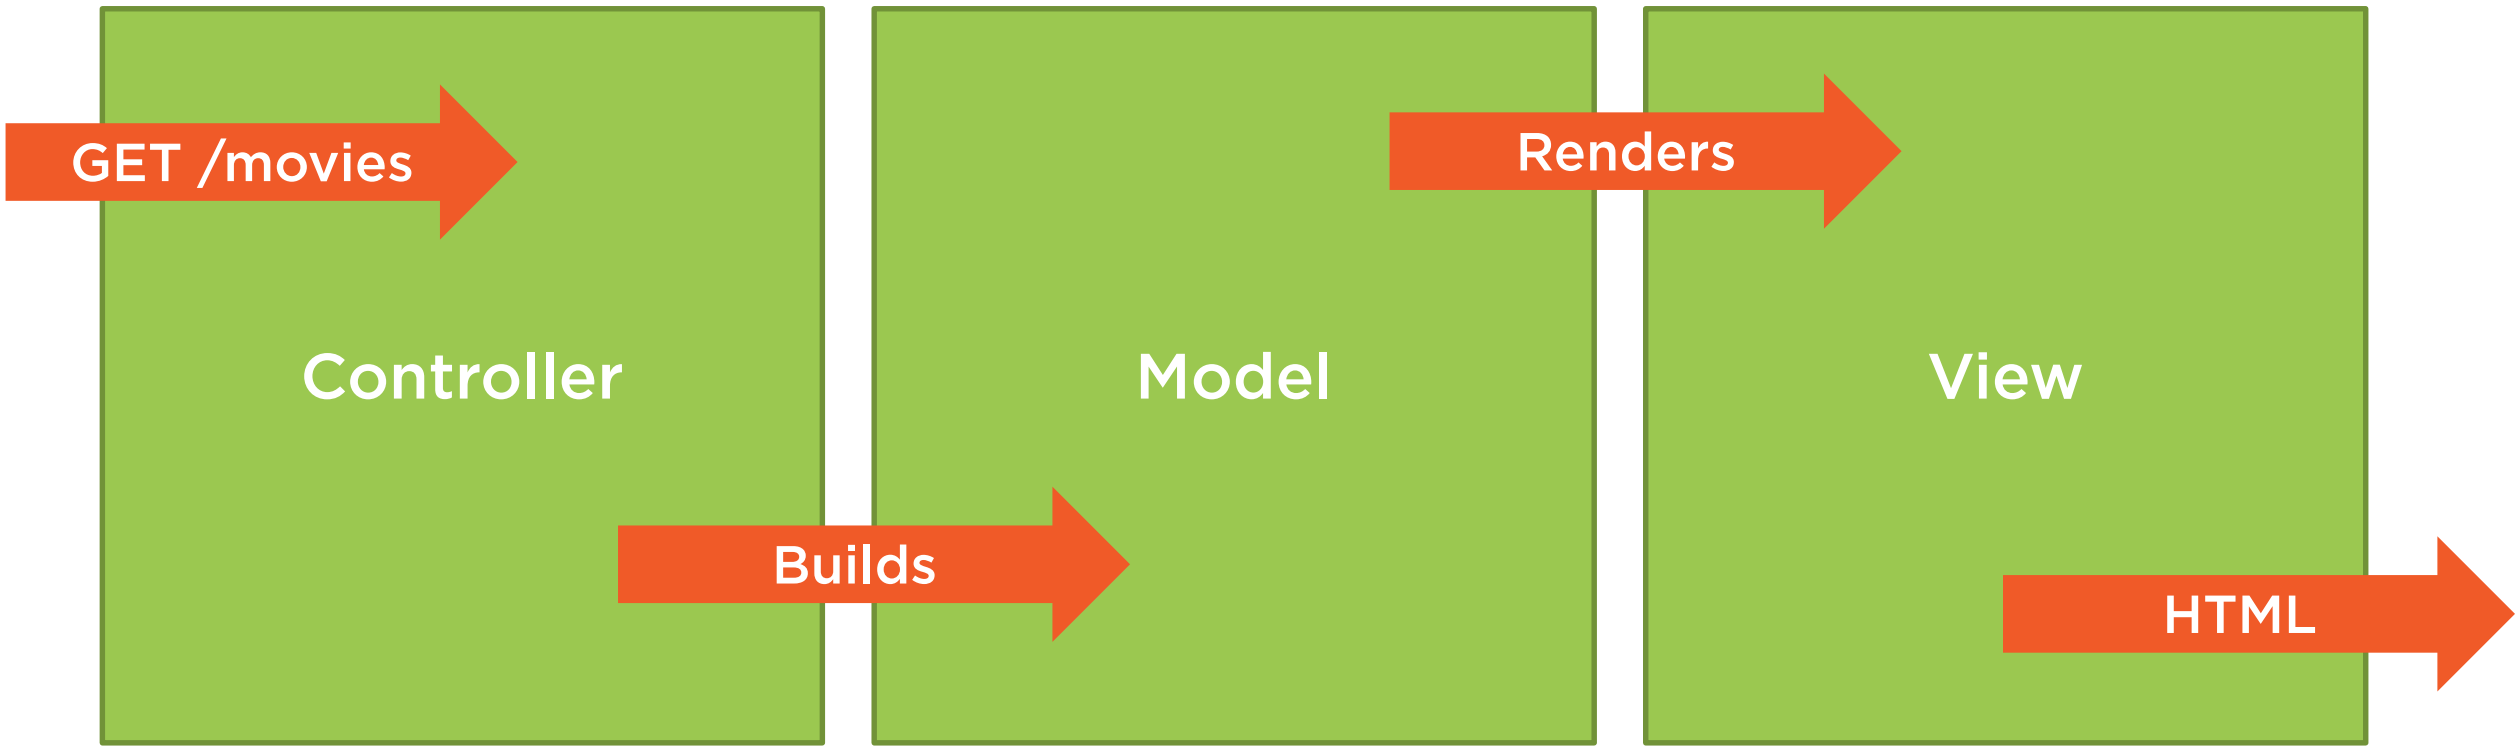
Model View Controller



Routing

```
routeBuilder.MapRoute("Default",
    "{controller=Home}/{action=Index}/{id?}");
```

```
[Route("[controller]/[action]")]
```

Controller and IActionResult

```
public class HomeController : Controller
{
    public IActionResult Index()
    {
        return Content("Hello, from a controller!");
    }
}
```
